

# **“Apedale”**

## **Wednesday 7<sup>th</sup> February**

### **Led By Roger Whatley**

**Walk  
No 13**

**Your Leader**

**A Moderate 4-1/4 mile walk from the Heritage centre**

**Refreshments and toilets available at the Cafe in the centre**

**We begin our walk in an anticlockwise direction walking North past a series of works units, one of which manufactures concrete structures. We then turn southwards and climb up through a small wood onto “The Drive” which we follow to its end in Alsagers bank.. A short section of road ( no pavement for a while ) and take a footpath towards Watermills Farm. We turn off the path before the farm and take lunch before continuing through a pleasant wood to “The Chimney” which appears to be an air shaft for a mine ? We turn right and follow a path through the woods to rejoin the path that we had formally taken past the works units.**
